FULL STACK SOFTWARE ENGINEERING

Scorecard

Issued

07 Jun 2024

Name: SITI MUJAYANAH

Batch: 3

Module	Score	Notes
Web Development Essentials	Proficient	Excels in intermediate frontend complexities, adeptly deploys advanced HTML/CSS features like CSS Grid and Flexbox. Builds responsive, visually appealing web pages, flawlessly executes responsive design principles, showcasing polished, interactive assignment websites for optimal user experience.
Frontend Development	Proficient	Excels in advanced HTML/CSS, creates complex responsive layouts, and stunning pages. Builds user-friendly interfaces, leverages CSS3 for cutting-edge design, and optimizes performance. Expertly manages frontend infrastructure: deployment, networking, domain management, and workflow optimization.
Backend Development	Proficient	Excels in backend role, able to explain types, and integrate them in web development. Learn TypeScript, Node.js basics, JavaScript features, and set up a Node.js environment. Grasp building a server with Node.js and Express.js, covering routing, middleware, handling requests, files, and templates.
Frontend Development with React	Proficient	Excels in front-end frameworks, proficiently implement advanced React features like Hooks and Context API, and expertly optimize React applications for peak performance.
Unit Testing	Proficient	Excels in writing comprehensive and efficient unit tests for React components, mastering techniques to ensure high code performance and quality in React applications.
Backend Development with Flask	Proficient	Excels in building sophisticated web applications with Flask, and expertly implementing complex CRUD operations and user authentication using Flask.

Name: SITI MUJAYANAH

Batch: 3

Module	Score	Notes
Database Systems and Web Security	Proficient	Excels in database types and SQL. Excels in advanced security concepts like CORS, HTTP headers, and JWT, able to build and integrate secure web applications, and showcase project management skills in real-world web application development.
Data Structures and Algorithm	Proficient	Excels in leveraging AI for productivity, able to implement a wide range of data structures including arrays, linked lists, stacks, queues, trees, and graphs. Analyzes algorithm complexity using big O notation, designs efficient sorting, searching, and other operations.
Final Project	Proficient	Excels in designing and building a high-quality, fully functional web app, innovatively integrating learned technologies. Showcase ability in both frontend and backend development, presenting a polished, professional-level final project.
